# VIGNESH S

**Full Stack Java Developer**

Phone: 8124234995 | Email: vignesh.builds@gmail.com
LinkedIn: linkedin.com/in/vignesh1926 | GitHub: github.com/vignesh-builds | LeetCode: leetcode.com/u/cfJ4qQ138F

## PROFESSIONAL SUMMARY

Computer Science undergraduate and aspiring Full Stack Java Developer skilled in Java, Spring Boot, Spring Security, JPA/Hibernate, React.js and PostgreSQL. Experienced in designing and developing RESTful APIs, JWT-based authentication and authorization, role-based access control, CRUD operations and Docker containerization. Strong foundation in OOP, Data Structures and Algorithms, debugging and problem solving (140+ LeetCode problems solved).

## TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C
- **Backend:** Spring Boot, REST APIs (RESTful Web Services), Spring Security, JWT, Authentication & Authorization, Spring Data JPA, Hibernate, JSON
- **Frontend:** React.js, JavaScript, HTML, CSS
- **Database:** PostgreSQL, SQL
- **Tools & DevOps:** Git, GitHub (Version Control), Docker, Maven, Postman, IntelliJ IDEA, VS Code
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures and Algorithms, CRUD Operations, Debugging, Problem Solving

## PROJECTS

### CarePoint - Hospital Management System

*Technologies: Java 21, Spring Boot, React.js, PostgreSQL, Spring Security, JWT, JPA/Hibernate, Docker, Maven, JUnit*

- Developed a full-stack hospital management system with Spring Boot and React.js covering appointments, doctor availability, admissions, bed management, billing, prescriptions and medical history, with 3 role-based dashboards (Admin, Doctor, Patient).
- Designed and built 65+ RESTful APIs across 10 modules using layered architecture (Controller, Service, Repository), DTOs and global exception handling; tested all APIs using Postman.
- Secured APIs with JWT authentication, BCrypt password hashing and method-level role-based access control (@PreAuthorize) across 6 roles (Admin, Doctor, Patient, Receptionist, Nurse, Ward-in-charge).
- Implemented the appointment lifecycle (book, confirm, cancel, reschedule, complete) with double-booking prevention, bed reservation/transfer audit history and 25+ JUnit tests; containerized the backend with a multi-stage Docker build.

### ShopEasy - E-Commerce Application

*Technologies: Java 17, Spring Boot, React.js, PostgreSQL, Spring Security, JWT, JPA/Hibernate, Docker, Maven, JUnit*

- Developed a full-stack e-commerce application with product search and category filtering, product detail pages, shopping cart, multi-step checkout, order tracking, wishlist, product reviews and an Admin dashboard.
- Built 30+ REST APIs with Spring Data JPA and PostgreSQL; implemented JWT authentication with USER/ADMIN role-based access, stock deduction at checkout and a consistent JSON error format via global exception handling.
- Designed a relational PostgreSQL schema with 7 JPA entities (users, products, orders, order items, reviews, wishlist, email tokens) and entity relationships; wrote 25 integration tests.
- Implemented async email flows (order confirmation, shipped/delivered updates, email verification, password reset) using hashed one-time tokens, plus product recommendations (customers also bought, similar items).

### Personal Developer Portfolio

*Technologies: React.js, HTML, CSS, JavaScript, GitHub Pages*

- Developed a responsive portfolio website with reusable React components (About, Projects, Skills, Contact).
- Designed layouts using CSS Flexbox and Grid; linked project cards to GitHub and deployed on GitHub Pages.
- Ensured cross-device compatibility with responsive design for desktop, tablet and mobile screens.

## EDUCATION

**B.E. in Computer Science and Engineering** | CGPA: 7.309 (up to 6th semester)
Anjalai Ammal Mahalingam Engineering College (Anna University), Kovilvenni, Tamil Nadu | Expected 2027

**Higher Secondary Certificate (HSC)** | Percentage: 81% (486/600)
V S Boys Higher Secondary School, Thiruvarur

## ACHIEVEMENTS

- Solved 140+ problems on LeetCode covering Arrays, Strings, HashMap, Stack and Queue.
- Won 1st place in Debugging and Coding competitions at a technical symposium.
