VIGNESH S

Full Stack Java Developer

Phone: 8124234995 | Email: vignesh.builds@gmail.com
LinkedIn: linkedin.com/in/vignesh1926 | GitHub: github.com/vignesh-builds | LeetCode: leetcode.com/u/cfJ4qQ138F

PROFESSIONAL SUMMARY

Computer Science undergraduate and aspiring Full Stack Java Developer skilled in Java, Spring Boot, Spring Security, JPA/Hibernate, React.js and PostgreSQL. Experienced in designing and developing RESTful APIs, JWT-based authentication and authorization, role-based access control, CRUD operations and Docker containerization. Strong foundation in OOP, Data Structures and Algorithms, debugging and problem solving (130+ LeetCode problems solved).

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C
- **Backend:** Spring Boot, REST APIs (RESTful Web Services), Spring Security, JWT, Authentication & Authorization, Spring Data JPA, Hibernate, JSON
- **Frontend:** React.js, JavaScript, HTML, CSS
- **Database:** PostgreSQL, SQL
- **Tools & DevOps:** Git, GitHub (Version Control), Docker, Maven, Postman, IntelliJ IDEA, VS Code
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures and Algorithms, CRUD Operations, Debugging, Problem Solving

PROJECTS

CarePoint - Hospital Appointment Management System

Technologies: Java, Spring Boot, React.js, PostgreSQL, Spring Security, JWT, JPA/Hibernate, Docker, Maven

- Developed a full-stack hospital appointment application using Spring Boot and React.js with 3 role-based dashboards (Admin, Doctor, Patient).
- Designed and built 34 RESTful APIs (CRUD operations) across 5 modules using layered architecture (Controller, Service, Repository); tested all APIs using Postman.
- Secured APIs with JWT authentication, BCrypt password hashing and role-based access control using Spring Security.
- Implemented the complete appointment lifecycle (book, confirm, cancel, reschedule) with double-booking prevention; containerized the backend using Docker.

ShopEasy - E-Commerce Application

Technologies: Java, Spring Boot, React.js, PostgreSQL, Spring Security, JWT, Maven

- Developed a full-stack e-commerce application with product browsing, shopping cart and order management modules.
- Developed REST APIs with Spring Data JPA and PostgreSQL; implemented JWT authentication with role-based access, search, filtering and pagination.
- Designed a relational PostgreSQL schema for users, products, carts and orders using JPA entity mappings and relationships.

Personal Developer Portfolio

Technologies: React.js, HTML, CSS, JavaScript, GitHub Pages

- Developed a responsive portfolio website with reusable React components (About, Projects, Skills, Contact).
- Designed layouts using CSS Flexbox and Grid; linked project cards to GitHub and deployed on GitHub Pages.
- Ensured cross-device compatibility with responsive design for desktop, tablet and mobile screens.

EDUCATION

B.E. in Computer Science and Engineering | CGPA: 7.309 (up to 6th semester)
Anjalai Ammal Mahalingam Engineering College (Anna University), Kovilvenni, Tamil Nadu | Expected 2027

Higher Secondary Certificate (HSC) | Percentage: 81% (486/600)
V S Boys Higher Secondary School, Thiruvarur

ACHIEVEMENTS

- Solved 130+ problems on LeetCode covering Arrays, Strings, HashMap, Stack and Queue.
- Won 1st place in Debugging and Coding competitions at a technical symposium.
